Triskel Marine is a marine data company who, through their contact with the Marine Hub Cornwall team, relocated to Unit 1 of the Marine Renewables Business Park in 2017. They subsequently developed a new product, supported by a Marine-i R&D grant and secured a new contract with US based manufacturer. As a result they are looking to grow their business in Hayle and expand into the adjacent unit (unit 2), taking on additional staff. Unit 2 is currently occupied but the existing tenants have agreed to move to another vacant unit. The overall cost of the supporting Triskel’s expansion (including the costs associated with the relocation of the tenants currently occupying Unit 2) is beyond what can be justified on normal commercial terms. However, the Council is very keen to retain Triskel’s presence at the Hayle MRBP and is therefore seeking to secure funding from the EZ Growth Fund as a contribution towards the expansion and relocation costs. With STEM a priority for CloS LEP and Cornwall Council to enhance a sustainable supply chain of qualified students, this would also be a great opportunity to attract inward investors and further develop career pathways. Recommendation(s)

That the Rate Relief Renewal identified within this report is approved.

1. Executive Summary

There are two Enterprise Zones in Cornwall made up of five individual sites. All business rates generated over and above the agreed baselines are retained by the Cornwall and Isles of Scilly Local Enterprise Partnership (CIoSLEP) for 25 years.

It is a requirement of the CIoSLEP to review and approve annual rate relief applications from businesses located within the Enterprise Zones.

1. Impact/Outcomes/Issues

Businesses occupying the EZ can apply for 100% rate relief for up to five years.

The award of rate relief is granted as De Minimis aid under the State Aid Regulations.

Once granted the rate relief award needs to be renewed annually. This provides a mechanism for the businesses to confirm that they are able to receive a further tranche of de-minimis aid and for the LEP to confirm that the business is continuing to meet the conditions of the rate relief award, for example, monitoring and reporting of EZ outputs.

The following application for rate relief renewal have been received. The rate relief application from Apple Aviation did not include Offices at St Mawgan House when it was approved at the EZ Board in June 2018. As it was not included a decision is required from the EZ Board at the meeting in October.

This decision only relates to the award of rate relief.
